- Flexible schedules 2-3 sessions per week / 1-2 hours per session.
- Bilingual (Spanish, Navajo) to assist parents

Program Description (written by Provider)

Statewide- All counties served

Consultation and Assessment

First, we meet with the student and parent(s) to ascertain school attitudes, preferred learning style and any specific obstacles. We also assess the student in the particular subject-area of concern. This allows us to identify a base-line for evaluation of the program's effectiveness.

2. Plan Implementation

Based on the results of the consultation and assessment, a plan is recommended. Curriculum is designed with the specific student in mind, resulting in a personalized study plan. We continually check-in with the student and parent(s) to ensure satisfaction with the program.

3. Final Assessment

After approximately 18-20 sessions, the student is re-assessed to determine improvement percentage and program effectiveness.

Evidence of Effectiveness (written by Provider)

This is our **fourth** year providing Supplemental Educational Services in the State of Arizona. Students' pre/post test scores show an average of 18-20% improvement. We believe that individualized instruction and face-to-face tutoring is instrumental in providing the key components to improving a child's overall experience in our tutoring programs. Our success is measured by overall improvement in the area of study, test scores and completion of the students' programs.
